Valve Controller 700ETC

Characteristics

- Mobile, industrial manufacturing
- 2 years warranty
- Robust and durable
- Easy connections, function «Teach» and backups
- Manual or automatic functions
- Back end of cycle
- Delivered ready to use
- High-performance solenoid
- End of cycle signal
- Fashion Emergency Stop
- Ergonomic grip
- Burnout alarm
- 15 customizable programs
- Advanced information exchange
- Multi-valve control functionality

Standard and programmable systems

Versatile, convenient and fast handling, controllers 700 ETC, ensure the control of dosage with high accuracy. Featuring a high-performance and fast solenoid and double control function (open and close), the standard controller 700 ETC ensures perfectly repeatable actions millisecond with very short response times.

The «Teach» function to approach by learning the proper setting and save it in action. Several programs are recordable.

All communication with any PLC or interface by simply exchanging contact closure or 5V-24V reported. The result is a quick and easy installation as well as a mastery of dosing parameters and immediate visual check of the outcome of removal.

Programmable controller

In addition to collecting all the standard controller functions, advanced controller has a controller and a memory that allows for removal programs in way consistent with the problems of specific products such as dosing sequences , status information of the valve, or clocked simultaneous piloting of several valves, or simultaneous measurements of other elements of type sensors or detectors ...

Poly Dispensing Systems

PDS S.A.S is a french company that commercializes a wide range of dosage equipments, proven and effective.

Distributed in over 20 countries around the world, these equipments provide tailored solutions to many users in order to improve technically their manufacturing and reduce their productions costs.

Our collaborators and sales engineers all have a strong technical competences. They are able to answer your questions and offer you, after analysis, the right solution for your particular need.
